

Frost Resistance Elixir

Long ago, a wee goblin named Chibble lived in the heart of the cold and snowy mountains. Unlike his pals, who preferred the warmth of their underground burrows, Chibble loved to play and forage in the snow. But even he couldn't endure the biting cold for long.

One day, he stumbled upon a glowing crystal mint leaf and combined it with icy mountain cream, and sparkling glacier water. It created a potion that kept him warm and frosty all at once. The Frost Resistance Elixir became Chibble's secret to braving the elements, and now it's yours!

Unlock the Secret of Stealth!

To stay hidden in the shadows, potion makers often use disguised writing to pass secret messages and passwords. The Har Fox himself left this note to enter his lair but he swapped each letter for a sneaky symbol!

Use the key to crack the code and reveal the secret password to be given to the guardian and gain entry.
